

Prisk Elementary After School

we learn, we build, we play with

LEGO® Bricks

This is a hands-on class where students build motorized machines, buildings, vehicles and other structures out of LEGO® Bricks, using one-of-a-kind model plans... all without realizing it is educational because it's so much fun!! Our structured lessons and builds are specially designed by teachers, engineers, and architects. Students will work in a lab-type setting using LEGO® components unavailable in a typical kit such as gears, axles, beams, and motors. While exploring principles of ENGINEERING, ARCHITECTURE, PHYSICS and more, students will enhance problem solving and critical thinking skills, while fostering self-esteem, socializing, learning and fun! These classes will provide boys and girls an opportunity for creative expression and develop an appreciation for how things work!

STEM Science, Technology,
Engineering, Mathematics

WHEN: Thursdays beginning **January 10** for 6 weeks:
Jan 10, 17, 24, 31, Feb 7, 14

WHERE: Room #7

TIME: Grades 1 - 5 at 2:45 - 3:45pm
